

# “Living a Wise Life”

Based on Ephesians 5:10-15 (NIV)

Neil Peck, preaching August 19, 2018

† At the heart of living life as a Christian, there is a need to live a wise life.

† The Apostle Paul gives 4 steps to living a wise life:

1. Live life as a gift from God.
2. Work hard to get to know God
3. Let my faith transform how I live.
4. I must commit to the church.

† The wise life is lived in Christian community because we need each other.

## Applying Today's Message to My Life:

† What foolish things have I done in my past?

† How am I more wise in life today than when I was younger?

† What is my place in the purposes of God?

† Which of the 4 steps above are the easiest for me to live? The hardest?

† Which step can I focus on this week so that I may become wiser in my faith?
